Obstacles no match for class

Cocona Sakamoto, Kanoa Ahchee, Emily Crossingham and James Holland, 4/5C, Whitfield State School

THE class of 4/5C, 5G and 5J spent three days and two nights at the incredible Mungalli Outdoor Education Centre.

It was an unforgettable camp which featured activities such as tubing and gold panning, landslide, archery, an obstacle course, orienteering and team raft building.

The following is a recount based on the obstacle course.

"Grenade! No! I said lemonade! The obstacle course at Mungalli Falls was a real blast! 4/5C felt like real-life soldiers fighting their way across the old and hostile obstacle course. We had to climb over an old wooden wall, crawl under rope nets, swing across a muddy swamp, and

slide through a wire tunnel half submerged in water. 4/5C decided that the obstacle course was totally awesome!

We had never had so much fun! To prepare for battle, we marked our faces with mud.

We felt the air thicken with anticipation. Suddenly our energetic instructor shouted "Go!" and we were off, faster than the speed of light!

As our class crossed the finish line, we cheered and clapped as everyone had tried their very best.

4/5C would like to say thank you to the wonderful instructors at Mungalli Falls, and our fabulous teachers, Miss Collins, Mr Guthrie and Miss Jennison. Best camp ever!

WATER WORLD: Getting ready for tubing at camp.

TOUGH WORK: Students offer encouragement as a classmate tackles the wall during the obstacle course.
